SUMMARY

Frontend Software Engineer with building modern, responsive React and Next.js applications. Proven track record delivering full-stack SaaS products, AI-powered tools, and high-performance UIs. Passionate about clean component architecture, scalable design patterns, and creating seamless user experiences.

EXPERIENCE

Web Developer

2025 – 2026

Xpertspot IT Solutions Pakistan

- Oversaw and maintained the company's portfolio projects, ensuring performance, consistency, and up-to-date codebases.
- Wrote well-designed and efficient code using modern frontend practices including React.js, TypeScript, and TailwindCSS.
- Collaborated closely with backend developers to update existing features and deliver new functionality across client-facing websites.

PROJECTS

Doaba Sports doaba-sports.vercel.app/

2025 – 2026

Next.js 16, TypeScript, Redis, PostgreSQL

- Built a full-stack eCommerce platform using Next.js 16 with secure authentication flows, Redis caching, rate limiting, and API integrations.
- Implemented a complete Admin Dashboard with scalable backend/frontend architecture and optimized performance for high-traffic scenarios.

AI Design Tool

2026 – 2026

Next.js, TypeScript, Upstash, Cloudflare Agents SDK

- Developed an AI-powered design tool that generates architecture diagrams from natural language requirements.
- Integrated RAG architecture using Upstash Vector for semantic search and embeddings, improving diagram relevance. Implemented AI agent workflows using AI SDK and Cloudflare Agents SDK with Durable Objects for persistent stateful sessions

Navasana Frontend navasana.ai/

2026

React.js, TailwindCSS, JavaScript

- Developed a modern, responsive frontend with a strong focus on clean UI/UX, reusable component architecture, and optimized rendering performance.

XpertSpot Official Website xpertspot.com/

2025 - 2026

React.js, JavaScript, TailwindCSS

- Delivered the complete UI/UX for the company's public-facing website, building reusable modules and fully responsive layouts for a polished web experience.

E-Tailor e-tailor-admin.vercel.app/

2025

React.js, TailwindCSS, REST APIs

- Built the frontend and integrated with backend APIs to deliver a functional tailoring management platform with an intuitive admin interface.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML/CSS, SQL

Frameworks: React.js, Next.js, Node.js, Express.js

Tools & Styling: TailwindCSS, Bootstrap, MUI, Git, GitHub, Vercel, Cloudflare

Databases & AI: PostgreSQL, SQLite, Upstash Vector (RAG), Cloudflare Agents SDK, AI SDK

EDUCATION Khawaja Fareed University of Engineering and IT

Rahim Yar Khan, Punjab

B.S. in Software Engineering

2023 – 2027 (Ongoing)
